NATIONAL RESEARCH INSTITUTE

The new solutions of the CAP 2013+ to the challenges of the EU member states agriculture

Editors:

prof. dr hab. Andrzej Kowalski

dr Marek Wigier

mgr Michał Dudek

COMPETITIVENESS OF THE POLISH FOOD
ECONOMY UNDER THE CONDITIONS OF
GLOBALIZATION AND EUROPEAN INTEGRATION

Warsaw 2013

Contents

| | |
|---|-----------|
| Foreword | 9 |
| 1. Global food market – new conditions for national sectors | 17 |
| <i>Dr Grzegorz Dybowski</i> | |
| 2. Flexible adaptation of farms to the requirements of the CAP in the new financial perspective after 2014 | 28 |
| <i>Dr Pierre-Yves Lelong, MSc Sebastian Filipek-Kaźmierczak, Dr inż. Joanna Pawłowska Tyszko</i> | |
| 2.1. Introduction | 28 |
| 2.2. Scheme of the problem | 28 |
| 2.3. A new approach to added value in the context of the future perspective of the CAP | 31 |
| 2.4. The concept of a flexible farm | 32 |
| 2.5. Conclusions | 33 |
| 3. Phenomena occurring in agriculture of the EU Central and Eastern European countries after 2004 and conclusions for the future | 35 |
| <i>Prof. dr hab. Wojciech Józwiak, Prof. dr hab. Wojciech Ziętara</i> | |
| 3.1. Introduction | 35 |
| 3.2. Situation of agriculture before the accession | 35 |
| 3.3. Situation of agriculture after the accession | 37 |
| 3.4. Probable CAP consequences after 2014 | 42 |
| 3.5. Summary | 44 |
| 4. Programming Process of Rural Development Measures 2014-2020 in Austria | 47 |
| <i>Ing. Klaus Wagner</i> | |
| 4.1. Austria's basic situation | 47 |
| 4.2. The general EU strategy | 49 |
| 4.3. Common Agricultural Policy | 50 |
| 4.4. The programming process in Austria | 51 |
| 4.5. Problems and areas of conflict | 52 |
| 4.6. Concluding remarks | 54 |
| 5. Situation in the Czech agriculture after 9 years of EU accession – a research position to strategic challenges for a future policy after 2013 | 56 |
| <i>Doc. ing. Tomáš Doucha, Ing. Jan Šlajs</i> | |
| 5.1. Introduction | 56 |
| 5.2. The main characteristics of the present Czech agriculture – a critical assessment from research point of view | 57 |
| 5.3. Strategic goals for the Czech agriculture | 63 |
| 5.4. Research position to the CAP reform after 2013 respecting the strategic goals | 64 |
| 5.5. Conclusions | 68 |
| 6. The new CAP reform: an analysis of impacts at the sub-national level. The case of Tuscany | 70 |
| <i>Prof. Leonardo Casini, Dr Caterina Contini, Dr Gabriele Scozzafava</i> | |
| 6.1. Introduction | 70 |
| 6.2. The CAP reform and the related effects: the state of the art | 71 |
| 6.3. Method | 72 |
| 6.4. Current situation of the Tuscan farming system | 75 |
| 6.5. Simulation of financial aid redistribution following the proposed CAP reform | 78 |
| 6.6. Discussion | 82 |

| | |
|---|------------|
| 7. The state and insurance in agriculture– implications for the CAP 2013+ | 85 |
| <i>Prof. dr hab. Jacek Kulawik, Dr inż. Joanna Pawłowska-Tyszko, Dr inż. Michał Soliwoda</i> | |
| 7.1. Introduction | 85 |
| 7.2. Agricultural insurance – causes and forms of involvement of public authorities | 85 |
| 7.3. The effectiveness of government intervention in business insurance in agriculture | 86 |
| 7.4. CAP and risk management in agriculture | 87 |
| 7.5. Conclusions | 90 |
| 8. Foreign exchange hedge | 92 |
| <i>Ph.D. ing. Jaroslava Dittrichová, Ph.D. ing. Libuše Svobodová, Ph.D. Miloslava Černá</i> | |
| 8.1. Forward | 92 |
| 8.2. Case study | 93 |
| 8.3. Conclusions | 96 |
| 9. Sustainable development of family farming in Poland. The political aspect | 97 |
| <i>Prof. dr hab. Józef Stanisław Zegar</i> | |
| 9.1. Introduction | 97 |
| 9.2. Environmental sustainability of private farms according to area groups | 98 |
| 9.3. The sustainability of private agricultural holdings according to economic size (SGM) | 101 |
| 9.4. Collision or convergence of sustainability elements: environmental, economic and social order | 103 |
| 9.5. Policy | 105 |
| 9.6. Summary | 111 |
| 10. Socio-economic view of the contemporary situation in the Czech agriculture and countryside | 113 |
| <i>Prof. Ph.D. Ing. Věra Majerová, Ing. Jiří Sálus</i> | |
| 10.1. Introduction | 113 |
| 10.2. Methodology | 115 |
| 10.3. Results and discussion | 115 |
| 10.4. Conclusions | 121 |
| 11. Institutions acting for rural development – future challenges | 124 |
| <i>Dr hab. Danuta Kołodziejczyk, Dr inż. Adam Wasilewski, Dr Marcin Gospodarowicz</i> | |
| 11.1. Introduction | 124 |
| 11.2. The policy of supporting entrepreneurship development in rural areas | 125 |
| 11.3. Summary and conclusions | 129 |
| 11.4. Integrated approach applied by institutions acting for rural development | 129 |
| 11.5. Coordination and cooperation between voivodeship and local self-government acting for rural development | 130 |
| 11.6. Coordination and cooperation between local institutions acting for rural development | 134 |
| 11.7. Does the existing institutional system favour cooperation and coordination processes? | 136 |
| 11.8. Recommendation for the institutional system operating for rural development | 136 |
| 12. Development of biofuels production and food security – Implications for economic policy | 138 |
| <i>Prof. dr hab. Szczepan Figiel, Dr Mariusz Hamulczuk</i> | |
| 12.1. Problem statement | 138 |
| 12.2. Causes and effects of biofuel production development | 139 |
| 12.3. Price interconnectedness between agricultural and energy markets | 141 |
| 12.4. Food security in the context of price volatility | 147 |
| 12.5. Impact of the development of biofuels production on food security | 147 |
| 12.6. Summary | 148 |

| | |
|--|------------|
| 13. Innovation opportunities in Hungarian agriculture and rural development | 152 |
| <i>Ph.D. Szabolcs Biró</i> | |
| 13.1. Introduction | 152 |
| 13.2. Role of innovation | 152 |
| 13.3. Situation in Hungarian agriculture | 152 |
| 13.4. Performance of young farmers | 154 |
| 13.5. Interviews with the actors of the innovation chain | 155 |
| 13.6. Conclusions | 155 |
| 14. Analysis of the actual indicators of competitiveness in the Serbian agricultural sector | 158 |
| <i>Ph.D. Vesna Paraušić, Prof. Ph.D. Drago Cvijanović, MSc. Predrag Vuković</i> | |
| 14.1. Introduction | 158 |
| 14.2. Place of agricultural production in the Serbian economy | 159 |
| 14.3. Competitiveness indicators of the Serbian agricultural sector: reasons and consequences for non-competitiveness on the international market | 162 |
| 14.4. Development paths of competitiveness of Serbian agricultural sector | 168 |
| 14.5. Conclusions | 170 |
| 15. Alignment of agricultural and rural development policy in the Western Balkans with the European acquis: cases of Bosnia, Montenegro and Serbia | 172 |
| <i>Ph.D. Hamid el Bilali, Ph.D. Roberto Capone, Ph.D. Nouredin Driouech, MSc. Sinisa Berjan, Mirjana Radovic, Prof. Ph.D. Zorica Vasiljevic, Ph.D. Aleksandra Despotovic</i> | |
| 15.1. Introduction | 172 |
| 15.2. Material and methods | 176 |
| 15.3. Results and discussion | 176 |
| 15.4. Conclusions | 187 |
| 16. Competitiveness of Ukrainian foodstuff | 192 |
| <i>Prof. Ph.D. hab. Tatiana Mostenska</i> | |
| 17. Problems and perspectives of sustainable development in Belarusian agriculture | 202 |
| <i>Prof. Ph.D. hab. Anatoly Sayganov, Ph.D. Alexander Kazakevich</i> | |
| 18. The Hungarian horticulture sector: analysis of outdoor and greenhouse farms | 213 |
| <i>Ildikó Ehretné Berczi</i> | |
| 18.1. Introduction | 213 |
| 18.2. The Hungarian agriculture's place in the EU | 213 |
| 18.3. Territory of vegetable indoor and outdoor (2001–2011) | 214 |
| 18.4. Vegetable production | 215 |
| 18.5. Export–import | 215 |
| 18.6. Sales possibilities | 218 |
| 18.7. Challenges in the vegetable sector | 220 |
| 18.8. Conclusions | 221 |
| 19. Review of some agrostatistical indicators that characterize Bulgarian vegetable production in the context of Common Agricultural Policy | 223 |
| <i>Ph.D. Teodora Stoeva</i> | |
| 19.1. Introduction | 223 |
| 19.2. Materials and methods | 224 |
| 19.3. Results and discussion | 225 |
| 19.4. Conclusions | 226 |
